Man may neglect the soul and try to satisfy the flesh and he may find in earthly things a satisfying portion for a little while, but the peace of God is the only thing that satisfies wholly in life and in death. Millions of martyrs have given up their lives rather than give up the peace of God out of their hearts, and their enemies have beheld with wonder and amazement the heavenly peace that they possessed even in the hom of torture and death.

Why try to satisfy the hody and neglect the soul? The body must soon decay hat the soul will abide through all eternity. "Let the peace of God rule in your hearts." (Col. 3:

The Holy Ghost would commune with you and lead you to visions of love, did you but give Him time. There are realms of service which He would unfold to you; there are rivers of joy which He would send your way; there are pleasures at His right hand you have not tasted until, sitting at His feet, you wait and wait for the Voice of Jesus in your inner heart, whispering the secrets of Heaven. Does He trust you with the secrets of the Father? Does He unfold to your longing, waiting heart those wondrous plaus of eternity? Have you heard the news that angels long to know? # TEXT-BOOK OF SALVATION ARMY TRADITIONS

Reviewed by E. GARRY ALLIGHAN, "Evening Telegram," Toronto

S AID the ancient Easterners: A man's destiny is written in the stors. Meaning that there is a tyrannical and inevitable fatalism gulding and governing every mins' sway and work. If that were true, then man need not strive and struggle—he could more readily achieve his destiny by listlessly lazing.

Behind such fatalistic futility is the tevery individual is constituted with gifts and graces, talents and texture, that fit him only for some predestined groove, outside of which he could not succeed. This hypethesis is brilliantly exploded by the fact of General Bramwell Booth. According to my reading

Booth. According to my reading of his latest book—"Echoes and Memories"—or, rather, to my read-ing between its lines—he is a living ing between its lines—he is a living contradiction of that fatuous theory. For in him the perceptive observer can recognise capabilities which would make him an equal success in half a dozen spheres other than the one he has so brilliantly illumined.

success in half a dozen spheres other than the one he has lightly illumined.

General Bramwell Booth, head of The Salvation Army, would have made a successful statesman, a capable financier, a great audigintaries and profund philosopher. Having said which, it cours to me that ouly a man combining the respective qualities of the statesman, the preacher, the diplomat, the lawyer, the writer, the strategist and the thinker could exhibit the generalship that the whole world recognizes in The Army's present Leader.

In the hook under review General Bramwell Booth reveals the elasticity and versatility of his mentality. Is there a political problem involved? He evidences a grasp of contemporary political policies and undercurrents that even we whose business it is to know them are left better informed. Or have the intricacles and intuisions of the law to be negotiated? He handles these legal men and matters as it he lad been born with a wig and his natural atmosphere was that of the chambers. Or are the philosophic theorisings of the intelligentia challenging the eternal verifies? He reaches deep down into the treasure houses of literature and produces arguments from Plato, Homer and Socrates which conflut and confound the pathetic purillities of the Free-thinking philosophers. Undoubteally the event that "Echoes" loudest in his "Memories" is the Armstrong case. This affair of heroic sordiness can, like all other pictures, be seen better at a distance. At the time many of the General's well-wishers disagreed with the wishon of his action, but the historian is able to appreciate the supreme self-abrogation and holy daring that more than justify (apart from the hendred of the recomment of his modus operandicating to that case. Here is shown at work the mind of the politician. The evangolist wanted to alter the legislation affecting the meanted to alter the legislation affecting the meanted to alter the legislation and discreet consultations with Party leaders and discreet consultations with Party leaders and discreet c

melancholy trade.

And all three won. By judiclous "Lobbying" consultations with Party leaders and discreet manipulation of public opinion so that its pressure forced the Government to look to its votes, the Crimiani Law Amendment Bill was passed after heated and Harcourity cabinet meetings. The conditions of bodily slavery were revolutionized. The great soul-redeeming work of the Womon's Social was conditioned to salvage thousands of fallen slaters. fallen sisters

picture of W. T. Stead, his chief col One picture of W. T. Stead, his chief co-laborator in this crusade is given by the General, who quotes a letter he received from Mrs. Jos-ephine Butler, the great reformist. She wrote: "Mr. Stead is publicly known only as a brave and enterprising reformer. But to my mind tho memory is ever-present of a dark night in which

I entered his office, after a day of hand-to-hand wreatling with the powers of Hell (in the course of the Armstrong case). We stumbled up the narrow, dark stairs; the lights were out, not a soul was there, it was midnight. I scarcely recognised the haggard face before me as that of Mr. Stead. He threw himself across his desk with a cry like that of a bereaved or outraged mother,

"'Go and do something," he said. 'We must do something,'
"'What can we do?'

"What can we do?"
"Get them a shelter."
"That will cost money."
"Well, that is your affair! Something must be done. Get hold of a warehouse and warm it, and find something to cover them. But mind, Bramwell, no coddling.'"
In this same chapter, in fact, the present General gives an intimate study of the Founder and, with the candor of the true biographer, does not shrink from indicating those few trifling defects of disposition, without which is no mortal this side the Pearly Gates. They are the defects of his virtues. Thus:

"His guideesness was one great secret of his strength. . . This simplicity of character, of course, had its apparent disadvantages, had its apparent disadvantages, hie would often say what everybody thought to be impolitie. The fear of his occasional imprudances gave me bad half-hours! There were interviewe of great importance; for example, when it was certainly the part of worldly, if not spiritual, visidom to refrain from entering upon certain subjects so long as silence could be maintained with inhor. In such circumstances he was never to be trusted, however much he might have been entreated beforehand! The interview would be half through when out would come the cat from the bag! It was delightful and I am bound to say that never—or very rarely—found any "His guilelessness was one great

ful and I am bound to say that I never—or very rarely—found anything but good come out of his 'indiscretions,' however much they might give me and others 'pins and needles' at the time."

It was remarked, earlier in this review, that General Booth has a wide knowledge of philosophic theories and is a voracious reader of the best forms of literature. This is revealed by the chapter, "A Brush with Herbert Spencer," of whose philosophic system he had long entertained misgrivings.

This volume has heen well-named. It is full of Memories, many of which are the exclusive copyright of the author; its incidents and reminiscences are all Echoes from that historic past in which traits and traditions of this great Army are deeply rooted. Its interest cannot, however, he circumscribed to the Salvationist direle of readors: touching, as it does, ecclesiastical, legal, political and social affairs, it has an interest value to the eless reveals, in momentary flashes, the real author. For instance; on one occasion he quotes the Founder as giving to an early gathering of Officers "The secret of our success" as heing "a heart consumed with the flame of ardent, holy, heavenly love." And then, out flashes the Bramwellesque touch— "Thank God that is still the secret."

Some years ago I was at the Regent Hail (London) on the occasion of the wedding of Motee, daughter of Commissioner Both-Tucker, to Lieut-Colonel Sladen, and, being on the platform, overheard what passed hotween the General, who conducted the ceremony, and the Registrar. As the former signed the register, he laid down the pen, grasped the hand of the official and said, "And are you saved?"

I mention this to show how the following comment on Dr John Clifford in this book is so characteristic. After referring to his efforts on behalf of The Army during the darker days, the General adds: "Dr. Clifford should have been a Salvationist."

In many respects Dr. Clifford was. I remomber, about three years ago, interviewing Dr. Clifford for my paper, and after chatting with him on vitai public matters, and certainly giving him no reason to thing I was anything but the ordinary newspaperman, he concluded the interview by saying, "Let us pray together young man." We knelt in his drawing room side by side—

# ECHOES and MEMORIES HAVE YOU YET READ IT? NEW AND INTERESTING VOLUME BY THE GENERAL

Fascinating, instructive, and intimate records of the General's personal memories relating to important persons and happenings during a period of forty years prior to the passing of the Founder.

This book is talked of the world over, and has been reviewed by the press of many lands.

It abounds in vivid glimpses of the early life and progress of The Salvation

It abounds in vivid glimpses of the early life and problems.

There are pen portraits of famous people with whom the General has come into close relationship. Sparkling conversations with rulers, eminent statesmen, and dignituries of the churches are found throughout its pages with the opinions expressed by them on important matters relating to the welfare of the people.

Trenchant pages on "Bench and Bar," "Scientists," "The Majesty of the Law," are amongst the attractions of the hook. The General speaks fearlessly about men and things, and the book is one to be read, re-read, and read again.

It has a fine new frontispiece of the General.

rather than that of an indignant man, and sobbed out the words: 'Oh, Mrs. Butler, let me weep; ist me weep or my heart will break.' He then told me in broken sentences of the little tender girls he had seen that day sold in the fashionable Westend brothels, whom he, father-like, had taken on his knee, and to whom he had speken of his own little girls."

What is also pleasing in the book are the extended references to the Founder written by his son and successor. Where the Founder was dynamic his son is dulcet; where he was thunderous the son is thoughtful. Occasionally there is a gleam of the Founder in the son—a glint of those piercing eyes; a dogmatic thrust of the forefinger; a drawing-up of that gann figure and, of course, that familiar ruffling of the silvery locks with the left hand.

But he is not merely an echo or a reflection of the Founder. Posterity has an awkward way with the some of great men. Public opinion, having mastered the father's name, often sinks hack exhausted by the effort, and, catching sight of the son, will murmur the pstronymic in a reminiscent way. But in the case of Booth the First and Booth the Second is the exception to this rule. There is a like, yet different, greatness.

One picture, given in the opening chapter, reveals the candor and compassion of the indomitable William Booth.

Lower: The Yorkville Songster Brigade (Leader Andrew Graham).

THE fourth Toronto Corps (Yorkville) has a history, and so it ought to have, for on April 4th last, the Corps attained its fortieth birthay. There are still a few Soldiers in Toronto who recall the feverish days of '86, when The Army Movement was organized "up north," for in those days Yorkville was "out in the country."

Yorkville has been an up-hill struggle, for the larger, more brilliant and better organized Corps have absorbed numbers of its converts and Soldiers. However, definite and encouraging progress being made, and, at the present time, Yorkville is enjoying more prosperous days than she has for some time.

Probably one reason for Yorkville's present

for some time.

Probably one reason for Yorkville's present progress is the inspiration which young blood contributes to the Corps. The Company Meeting averages about eighty in attendance; the newly-formed Y.P. Band, which recently made its first public appearance, provides interest and opportunity for the lads; the Y.P. Singing Company, numbering twenty-eight voices, has gained quite a reputation by its sweet singing; the Chums, Corps Cadets and Y.P. Legion members also regularly

meet for their respective purposes. Were this Y.P. artery severed from the Corps certainly a doctor would be needed.

The Songster Brigade, shown on this page, was organized during the command of Ensign Godden. Leader Andrew Graham, a canny Scotchman, wields the baton and is gradually rounding his Brigade into good shape.

The Corps also boasts of its fistful of "Old Guard" warriors, that is, those with the furrowed brow, faitering step, but ringing testimony. To the rear of the Hall hangs the photograph of

Yorkville's most distinguished veterau and contribution to the Officery of The Army, namely, Lieux-Commissioner W. J. B. Turner, now Territorial Commander of South America (East). His pieture hangs there as a prophecy of what any young, sincere Salvationist may become by the grace of God and lots of hard work.

Yorkville nas also scaled the heights of Seif-Denial fame during the past two years, having come perilously near the Territorial Championship on both occasions. Yes, Yorkville has a history, but is also making history.

There is something inspiring about Paul's statement: "Nay, in all these things we are more than conquerors." If you are real lovers of God, full of fervor and passion for souls, you will not only conquer your enemies, but you will do mors than that. You will lose nothing in the fight, but rather you will gain by every struggle, however intense and severe it may be. You will become officers, nobler in character with every conquest. you to be tried more than you able to hear. (lat Corinthians 10:13.)

2—Victory in your work.

By being faithful to the Covenant which you made on the last Sunday evening you were in the Garrison, and by being loyal to your Dedication vows you will become progressive Salvationists; you will dily enter into new spiritual experiences, new joys, and new visions of God's almightiness, wisdom and grace. This progress in your soul will mean continual victory in your work. You will win souls, help cast devils out of men and women, make saints out of meners, and enlist Soldiers for God and The Army out of those who were formerly the enemies of truth.

Remember, you will gain no victories either in your soul or in your work apart from Christ. You were become and words apart from Christ. You were become during your training days, great blessing and victory over self due to your increased knowledge of Jesus, your Saviour Go carefully over the chapter from which your mouto is taken and you will find that it teaches there will be: (1)—no condemnation; 2—no weakness: 3—no defeat; 4—no despair; 5—no want; 6—no separatiou. Take heed to the words of Jesus which He spoke to His disciples on the eve of His death. I mean the words recorded in John 15:5 (margin). "Severed from Me you can accomplish nothing." Real religion consists in the union of the son! with Christ. Without this union you can accomplish nothing. # Adjutant and Mrs. Thomas Leech Appointed to the Central States Territory

Irishmen get along well in the States, as Adjutant Leech will have found out by this time. There are some nooks in old Ontario that will seem rather bare without the smile, the wit and the hulk of the Adjutant. He never told us whether or not he ever klased the Blarney stone, but just the same he possesses the talent of saying nice things at nice times and in nice places. just the same ne possesses the carend of saying nice things at nice times and in nice places. His cordial temper and his Irelary have soothed many troubled spirits.

Two reasons why Adjutant and Mrs. Leech have achieved success are because (1) they were born in Dublin. Ireland—some years ago—and thus inherited those characteristics native to folks who first see the day-dawn in the Enterald Isle. (2) they were converted in their tesns and, when young, learned to serve God.

It was something over a score of years ago that these two comrades, then serving as Corps Cadets in the Dublin Corps, decided that God should have them as His tools in the great task of Kingdom-bullding. The Training Garrison beckoned, they responded, and in short order they entered the wide-swung doors of Clapton. Of Course they were single at this time and it is not divulged whether or not Cadet Tom Leech had designs for the life of Cadet Mary Ann Cochrane. However, they were both retained as Sergeants at the Training Garrison, and neither one appealed for change of appointment!

Both Captain Leech and Captain Cochrane were then appointed to the Field. It came to pass in 1912, when the former was in charge of the Kircaldy Corps, that wedding bells rang out and Captain Cochrane changes ther name to Leech.

Six months later our comrades migrated to Canada, their first ago with the comment of the war. Periods of command at Brantford, Lisgar, West Toronto and Dovercourt occupied other years of useful and happy service. The Adjutant recalls with satisfaction that it was due to his initiative that Outpots were opened at Mimico and Swansea, both of which are now organized and Officered Corps.

Their last Field service in Canada was rendered at London I, and, after a stay of nearly two years, they moted to Giory on Thursday evening, June 37d.
Our promoted comrade was blessed with sterling Salvationist parents, who dedicated her to God when she was but a babe. It was when attending Company Meetings, held in a tent, and conducted by her aunt, Staff-Captain Elbery, on the shore of one of the Kawartha Lakes, that she kneil at the mercy-seat and found the Saviour. A few years later, when the Band was organized, she was one of the first to take up an instrument, and right up until within two weeks of her promotion to Glory she rendered excellent service. Not only was our comrade a faithful Band member, but a Higher Grade Corps Cadet. WAR CRY Sergeant and Company Guard.

Their last Field service in Canada was rendered at London I, and, after a stay of nearly two years, they were transferred to the Immigration Department and given charge of the Burnside Lodge, Woodstock, Ont. In this new sphere of activity the Adjutant revelled, and his ministry among the many lonely lads who came under his care has borne much fruit.

Adjutant and Mrs. Tom Leech

And now the Adjutant and Mrs. Lesch have been transferred to the Central Territory, U.S.A., and to the command of the Reciford (III.) Corps in particular. Like true Soldiers of the Cross they will adapt (themselves to new conditions and a new people. May their sojourn under the Strass and Stripes be laden with blessing.

Oshawa Corps has lost a splendid Soldier through the promotion to Glory of Sister Mrs. Borland. Of a quiet and unassuming nature, ready at all times to do what she could as health and circumstances permitted, she has left behind an influence of a godly character. Our contrade was for many years a Soldier at Sault Ste. Marie, and held various local positions there. The Funeral service was conducted by Adjutant Barclay. Field-Major Mercer spoke very fittingly of the devotion and unselfishness of our comrade, as also did Ensign Green. At the Menorial service several splendid tributes were paid to her memory, and a number of comrades reconsecrated their lives to God.

I can see the lean figure of that old saint now, with his situered head and wasted fingers—and then he said, "You pray." I did and then he said, "You pray." I did and the followed. Surely that was the attitude of the Saivationlet.

Here then, is a volume that reveals his author as much as it reveals his subject. It shows General Bramwell-Booth as a keen student of humanity, a stern leader with a sympathetic soul and a mind tinctured with truest sentiment. It discloses a massive intellect, highly cultured and yet with none of that ponderous pomposity of the pedant. It reflects a great internationalist, sound in political conceptions, based on the credo—"The earth is the Lord's, and the fulness thereof," subscribing to the theory of the Brotherhood of Man ly reason of the Fatherhood of God. To read "Echoes and Memories" is to know its author hetter.

How a Meeting, Nearly Cancelled, Resulted in a Man's Salvation

"It had heen raining very hard all day, and the streets were flooded, and when the time came to go, to the open-air meeting," says Ensign J. Horgan, of Orlando, in a letter to the New York WAR CRY, "I hesitated. It was a long walk to our regular Open-air stand, and I had a feeling there wouldn't be anybody there. The weather was drizzling, and I kept de laying. The time for the Indoor meeting was rapidly approaching when I felt that we should go to the corner where we sometimes hold our week-end meetings, just a block away, and where there was an awning. Three of the men-comrades went with me. A few idlers stood around under the awning, and a few in the drug store, looking out at us. I suppose that they thought we were foolish. We gave out a song and prayed, and the crowd grew a little. "Suddenly I saw a well-dressed man jump out of a car, approach the meetings, and speak earnestly to one of the comrades. I went over to the man and he announced that he had heen making a fool of himself for a long while, but that now he wanted to join The Army, I told him that it took a little more than the mere intention to join The Army, I told him that it took a little more than the mere intention to join The Army, and then I spoke to him about his soul. He broke down completely. Kneeling down the wet pavement he wept, and prayed that God had pardoned him, he arose to his feet. He couldn't go to the Hall with us, blieving that God had pardoned him, he arose to his feet. He couldn't go to the Hall with us, but declared he ment to stand firm:

"The next day I visited the man in the town where he had a business, some twenty-five miles away, and found him radiant with joy and still determined to go forward. Had I not held that meeting on that might, very likely fitis man would never have been reached."

The last official report of the prison commissioners of Scotland

The last official report of the prison commissioners of Scotland makes special reference to the service rendered by The Army in the principal prisons at Glasgow, Edluburgh, Aberdeen, Dundee, Peterhead, etc. Visits for interviews and assisting in the sheltering and finding work for nine hundred and sixty-two cases, and otherwise co-operating with the prison authorities are included in this great work of reformation and the greater work of Salvation.

### TO BRIGHTEN BRAZIL

Reinforcements are being sent to assist in the task of seeking the Salvation of the Brazilians. Denmark is supplying four Officers and one is being contributed by Switzerland. Although The Army has only been established in this most difficult of countries for about three years, the work is making satisfactory progress under Colonel and Mrs. Miche.

# **DENMARK'S BIRTHDAY**

The thirty-ninth anniversary of The Army's work in Denmark was recently celebrated with much enthusiasm. All the Officers of Copenhagen and a great crowd of Soldiers formed two long processions and marched to one of the famous Squares where the Territorial Commander, Colonel Gundersen, described the accomplishments of The Army in the country. On the following day twenty-five open-air and eighteen indoor meetings were conducted, and numbers of penitents registered.

### STAFF-CAPTAIN WILLIAM HODGSON

HODGSON

The life of Staff-Captain William Hodgson, recently promoted to Glory from Walthamstow. England, was an enitome of his well-known battle song, No. 578 in The Salvation Army Song-Book. written when he was stationed at Limehouse, in the days of the Christian Mission. Long after many other song-writers are forgotten, the Staff-Captain will be remembered as the warrior who, in an hour of great difficulty and persecution, wrote: "Were a band that shall conquer the foe," with its inspiriting chorus: "I believe we shall win, if we fight in the strength of our King," That was his life-long slogan, and his whole career exemplified its spirit.

and his whole career exemplified its spirit.

The Staff-Captain came of sturdy north-country stock. Entering the Work from Spennymoor, forty-seven years ago, he passed through the transitional period of the Movement with credit, and wore with increasing appreciation the uniform which he loved and in which, a warrior resting after fighting and victory, he now takes his last sleep.

A human dynamo used by God for radiating Divine electricity, will perhaps best describe the domin-ating characteristics of Commissioner Peart.

will perhaps best describe the dominating characteristics of Commissioner Poart.

The manner of his retirement was in harmony with the whole of his career, which in some respects has been one of unexampled brilliancy. He has left the fighting lines with the unstitude praises of his General ringing in his ears. He has taken with him, from his Commander, a tribute to his worth and work which should fill any man with laudable and grateful pride, and, from his two fellow Territorial Commissioners, greetings honorable alike to the senders and the recipient. He has taken from Staff and Field Officers the fallest assurance of their admiration, affection and good wishes.

In the course of his farewell address the Commissioner said; "I am happy and grateful that I have lived to celebrate forty years' service under a Flag which I have revered, and to which I swore allegiance.

"Thave tried, during those years—twenty in Australia, and twenty in these United States, to be faithful to the great principles the Color represent.

"This meeting is the winding up of my official career after a rather unique and eventful record.

"We shall sing no funeral dirges, nor weep tears of regret. Rather we shall rejoice that I have been spared to render useful service over so long a period, and finish with the Flag flying, and the recollection that I have lived for a great purpose and have had a reasonably successful career. STRATFORD CORPS

It was conceded many years ago that Stratford needed The Army, and thus the Corps established in that city is like unto a nail driven in a sure place. From the highest official to the man on the street have come expressions of gratitude and love for our work; the well-being of Stratford, both temporal and spiritual, is attributable in greater measure than can well be computed to the presence and influence of The Army. His Worship, Mayor Marshall, has, with much heartiness, endorsed on work, averring that "no organization is doing a worthler or more useful work." The Chief of Police has displayed in no nncertain manner his sympathetic attitude and shows every possible courtesy. The County Clerk and County Sheriff each take THE WAR CRY regularly, being among the one hundred and fifteen customers whom commandant Poole served personally during his command of the Corps. Among the many contributory causes of the harmony that extended the test of this city on the Avon is doubtless the fat that Sergeant-Major Clark is a member of the City Council, and is now serving his sixth term in that capacity. His sound indigment and exemplary character exert, as one has remarked, a leavening influence in official circles, and his wise suggestions inevitably meet with general approval.
A certain coal merchant, speaking of "Dad" Bishop, Corps Treasurer, aidi. "I have watched his movements for years, and, in my opinion, if some men had been called upon to suffer winths some to Bishop in the course of his life, they would not have acted with such cheerful resignation."
Two years ago Commandant and Mrs. Poole, now of Montreal II, took charge of the work at Stratford and, whilst phenomenal advance cannot be reported as having taken place, during their command foundations were strengthened and the sp., itual time of the Corps was elevated.
The Band, under Bandmaster Gibert Williams, numbers twenty players, and tackles with commendable skill music that is within the Randsmen's range. The Hospital, County Home and various parks are visited, and frequent messages, received from officials and others, are indicative of Stratford's appreciation of the Band's efforts.

The Young People's Work of Stratford is carefully supervised and is in a very encouraging coudition. Monday night of each week is devoted entirely to the young people, and the attendance has on some evenings reached eighty-two. Special speakers are usually hooked for these occarious and much interest has been aroused. An optician of the city was one speaker, his subject being the care of the eyes. The Sergeant-Major was converted when Lieut-Colonel McAmmond was a Lieutenant and in charge of his first Corps.—Forest, Ont. The Sergeant-Major did not wall for regular meeting-time, but went forward during a prayer meeting which preceded the Open-air. Having "got through" all right he took his place in the ranks and marched to the Open-air to testify of his few-minutes-old Salvation.

The Training Garrison claimed him soon afterwards and for five years he served and for five years he served and for five years he served as an Officer, being stationed at Toronto I, Dovercourt and other Corps in the Dominion. Through lithealth in the family circle he was to resign, and has rendered loyal and willing service since as a Local Officer. For some time our Comrade was the Bandmaster at Clinton, and on arrival at Stratford twenty-two years ago proceeded to organize the first Band in the Corps' history. He has held his present position, which he fills very capably, for ten years.

In civil life the Sergeant-Major is in charge of the Veneer Department of a large industry. He is also serving his sixth term as a member of the City Council.

Seventy-one years ago Sister Mrs. Sykes crossed the Atlantic—a sailing vessel being the mode of transportation. It took six weeks to cross the water and to guard against the possibility of starving the mother of Mrs. Sykes brought a sack of potatoes with her!

The Army, of course, was unknown at that time and until its arrival in Mitchell, near Stratford, our Comrade was a Methodist. The late Lieut-Colonel Morris often visited Seaforth in the early days and frequently fourneyed to Mitchell to conduct meetings. It was not long hefore Mrs. Sykes threw in her lot with the Saines. Sister Mrs. Sykes was formerly a WAR CRY Sergeant, and has never not ther love for our Saivation Herald. Even at the ripe age of seventy-seven she still booms THE WAR CRY, and is ever on the alert for new customers.

It is to her credit that, when about to retire from a position in a local botel, the management made a special plea that she remain with them because they "could trust her."

# Summer Holidays on the Sun-Kissed Shores of Lake Simcoe

YOU WILL ENJOY YOUR VACATION BETTER IF YOU BRIGHTEN THE DAYS FOR OTHERS

OUR hundred children and a number of mothers will be accommodated this season at The Salvation Army Fresh Air Camp, located on the sunny shores of Lake Simooe. The venguard of this large family, which is under the experienced, supernitendency of Adjutant and Mrs. Harpley, has already exchanged anticipation for realization. They are revelling, as only youngsters can,

excited knot of boys engaged in a game of baseball; over there the girls are engrossed in playing "tag". The smaller fry have monopolized the swings and teeters whilst others find enjoyment in sauntering by themselves. All are occupied and all are hanny.

selves. All are occupied and all gre happy.
Contrast this scene of sheer delight with that of their city homes, where the environment in many instances is unspeakably sordid.
The Kiwanis Club, between which body and The Salvation Army, a fine spirit of co-operation exists, brought to our attention one unfortunate family of six children. The children are not fatherless—it would be almost better if they were—the father is in an Asylum for the Insane, and upon the mother falls the task of bread-winning for this little flock. It can be well imagined that a two weeks' respite is a rodsend in such a case.
Who can resist the appeal of the following incident?
A woman whose husband had deserted her, leaving her to look after three small children, the youngest being a baby of three months, was turned out of her house because the rent was in arrears. A lind friend took compassion on her and allowed her to use one of her rooms, but she was not allowed to take the wobys, as the landlord would not permit children in the house. The boys were taken to the Fresh Air Camp and looked after, while the baby was cared for by the friend. The mother has gone to work in an endeavor to regain a footing and make a home for her children. Another case is of a family who had once known days of plenty, but through sickness, lack of employment and consequent debt, had been turned out of the little home they were endeavoring to buy. Conditions grew worse, the mother having to go to the hospital for an operation, and the children being sick. When Sumer arrived the family was practically on the verge of starvation, the mother only having two meals in one week in order that the children might not go hungry. From these impoverished conditions, the children were taken to the Camp, given good nourishing food, and thus enjoyed a delightful holiday.

Among the children already at the Camp or who are on the "waiting-list" are children of my down weterans, and of fathers who have vainly waked the streets in search of employment.

"Buy a WAR CRY, sir," suddenly enquired a blue-garbed lassie. "Contains the latest evidence of a prosperous West," she continued.

The wheat king gingerly accepted the paper and handed the girl a greenback. "Keep the change, friend. Business is good!"

Then he searched for "the latest evidence of a prosperous West." Guess what it was?

"1926 marks the greatest Self-Denial victory in the history of the Canada West Territory. The splendid total of \$76,407 was realized."

"That's fine!" exclaimed Mr. Grane X, as he lifted his cane and brought it down again with a juvial thud. Bystanders looked at him smilingly, and thought he was reading the Racing News and rejoicing over a clean-up. But not so, the man who occasionally manoeuvred a corner in wheat had, for a few minutes, forgotten his own shekels and rejoiced in The Army's victory.

And thousands of Canada East Salvationists and friends rejoice with their comrades of the sister Territory in this latest token of western prosperity, popular approval, and the blessing of God.

The Hon. E. A. Reilly, K. C., M. L. A., who presided, was ably supported by the following local citizens: Ex-Mayor Hanford Price, Rev. W. J. Kirby, M. B. W. Lockhart, Mr. Thomas Doige, Mrs. Walter S. Carson, Mr. George Cochrane and others.

The service was opened by the strains of the old hymn, "O God, our Help in Ages Past," Adjutant Parsons prayed, and Mrs. Major Burton read a very appropriate Scripture portion.

Major Burton read a very appropriate Scripture portion.

The chairman was introduced to the audience by Major Burton who also spoke briefly of the accomplishment of The Army here and of the interest the Hon. Mr. Reilly had always taken in t. In the course of his remarks the Chairman said he considered it an honor to preside at such a gathering and congratulated The Army on the splendid building erected. He also paid a high tribute to Commandant and Mrs. Hargrove, speaking of the great work being accomplished under their direction in Moncton, and of the remarkable progress made in the City during the past quarter of a century.

Ex-Mayor Hanford Price, who is a member of the Oddfellows Lodge, and assisted in the raising of funds for the building, recalled the line when, on the platform in the old citadel two years ago, he spoke of the Salvationists requiring a new building, but at that time he did not think that The Army's hopes would be realized so soon. He viewed with gladness the part he had taken in soliciting funds for such a worthy cause and found that all who were approached for a donation were very willing to give to The Salvation Army.

Mrs. Walter S. Carson, who was

and found that all who were suprosched for a donation were very willing to give to The Salvation Army.

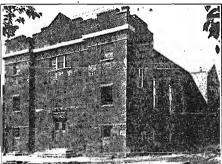

Mrs. Walter S. Carson, who was captain of the Pythian Sisters' team eagsged in the campaign, was the next speaker. She said that both she and the Sisters of Tidal Wave Temple were only too glad to help such a good cause. They found that all who assisted felt very proud that they had helped in a small way towards the building of such a wonderful citadel. She ventured the statement that, if at any time the Pythian Sisters were again called upon to help such a great cause as The Salvation Army, they would only be too glad to come forward and give their utmost assistance.

The Male Octette sang a very plessing number, after which Lieut-Colonel Jennings, the Property Secretary of the Army in Cannada East Territory, gave a short address in which he dealt with the financial statement of the building, then the would be necessary to complete the building, the estimated, was \$27,715.00, while the income from the financial campoign, the Harvey Horsman legacy, and the grant from Salvation Army Headquorters totalled \$23,498.00, which, with

promises outstanding to the amount of \$4,217.00, if realized, will be sufficient to cover the expenses. He also stated that there is a small debt of about \$2,000 still standing against the old property and the Officers will also require a further sum of about \$1,000 to provide additional equipment for the new building.

Mr. Thomas Doige, Past County Master of the Orange Lodge, then gave a short address in which he congratulated The Army and its friends on the fine building exected. It was something that Moncton had wanted for a long time and the local Corps had labored hard for it.

Mr. Doige related incidents which came to his memory of the time when The Army was but young in Moncton, and it was with great pride

that he had noticed it grow to the wonderful extent it has to-day. "It is doing great work, and I trust," he said, "it will continue to prosper and expand."

Commandant Hargrove, in a pleasing speech, expressed thanks to the esteemed Chairman, Hom E. A. Reilly, for presiding. He also thanked, on behalf of the comrades, those who were connected with the late Mr. Harvey Horsman, whose bequest had started the building fund. To the citizens who got behind the campaign and made it such a success, he tendered the sincere thanks of the Corps, and to the comrades in The Saivation Army he also expressed thanks for the worthy part they had taken.

"There is no city in the world, where The Army

He also wished to record that the handsome contribution made by the late Mr. Harvey Horsman has made it possible to liquidate the hall debt and has slop paid off part of the debt on The Salvation Army Maternity Hospital in Saint John. He expressed the hope that those making wills and not knowing what to do with all their money will not forget The Salvation Army.

The Commissioner paid high tribute to Commandant Hargrove, who, he said, has worked incessantly for the furtherance of The Army's activities and has accomplished much. (Cheers, He also spoke highly of the Band of the local Corps.

SUIT YOUR BAIT TO YOUR FISH

Some Bandsmen and Songsters may have been as unsuccessful as the writer in trying to hook those sly, elusive creatures which are reputed to play about near jetties and riverbanks. It one were to judge by personal experience in the matter, there must be very few fish about. With yearly renewed enthusiasm some of us, during holiday times, throw out bait into the deeps while the fresh breeze sweeps along to freshen our appetite for the meal we already in faith see frizzling and browning over the fire. Some Bandsmen and Songsters may

But though our prowess with the rod and line is not such as could make our reputation in the fishing business yet we know enough about it not to expect to hook a shark or a shrimp with a line and a hooked worm, and that one's tackle and bait must rive according to the country. must vary according to the fish one is after.

must vary according to the fish one is after.

Now apply this to our spiritual fishing, and the lesson is obvious. But do we do it; do we really suit our balt to our fish.

For illustration, in the Salvation meeting the Songater Leader mny have decided to sing a song which is on the lines of experience. But we notice there is a backslider in the meeting for whom many prayers have been offered and who has not been to the Hall for years. Now, Songster Leader, why not put on some bait which is perhaps more likely to hook him? a song about God's forheaving love for the wanderer; there are many such songs containing a forceful appeal to the backslider. Or, there may be noticed some person in the meeting who you know is passing through a season of deep sorrow and has a big burden to bear. Then why not choose a song ahout Jesus as the Burden-Bearer? It may prove effectiv

Many ways of sulting bait to your fish will suggest themselves to the alert Songster Leader, and also to the Bandmaster, and they will not mind if, in doing so, they have to macrifice what may seem a more brillant piece for a song or selection of less showy quality, but with a more suitable appeal to the occasion. So let us try, all of us who seek to be fishers of men, to sult our bait to our fish.

adoption of this method is necessary. The conductor commences the prac-ced filled with zeal, with a lofty ideal, and familiar with the score. In pass and familiar with the score. In passing, let me say that it is vital that the conductor should be able to "hear" the piece after acquainting himself with the score if he expects to get satisfactory results in practice. I mention this because I have known conductors who, after having gone through a piece many times with either Band or Brigade, do not ap-preciate what the composer has de-sired it is necessary to study the

In the first few bars he hears some in the first few bars he hears some wrong notes. He stops the Band or Brigade to try over certain parts separately. He starts again and finds that other parts are at fault; therefore he stops again to put them right.

This then, should suffice, as it is a mistake to expect artistic results too soon. Players and singers, as a rule, are aware of nistakes and when they have got a kind of subconscious grasp of the harmonies, they master

In a matter of note-perfection, after pointing out the errors or the very difficult passages, it is a good policy to leave it to the players or vocalists concerned and "wait and see." This is certainly better than keeping the majority of the Bandsmen or Song-sters idle for a considerable time whilst one of the parts is mastering a knotty point.

It is further useless in the case of ade to try to get a phrase ren-with expression before the phrase itself and the words have become familiar. Let it ever be remem-bered that artistic effect must have its antecedent of preparatory work; therefore, see that the critical or hypercritical method is not applied too early.

#### (3) The Compartmental (specializing) Method

Unfortunately, little is seemingly known of this method amongst many of our leaders.

It consists in taking some special point and concentrating all attention on it, and for the time being ignoring everything else. For instance, if note perfection of a difficult phrase be the object sought for, all faults of tone quality, words, breathing, or expressions are passed over. We might say that features calling

I am reminded that God is almost daily calling His old and trusted warriors Home, and gradually, but surely, are the weapons of Wsr de-sceuding into the hands of the Young

Army.

Now, as a young man, and an spointed leader, I am expected to avail myself of the rich heritage those warriors have bequeathed me. One's heart qualis for a moment when one thinks of the huse responsibilities resting upon us-we Juniors of yesterday. The Army of to-day our Army expects that I shall continue to uplift the Blood-stained banner of the Cross; and strive, as long as Gel lends me breath, to use my few talents in rescuing immortal souls from shi's dark abyss, and to serre The Army's Colors as fathfully as did those departed warriors.

I must ever keen in view the ob-I must ever keep in view the objects of our singing, i.e., to arrest and convict, through sanctified song, those that know not God's Salvation. I must equip myself as a true creader, be ever ready to speak, sing, or pray; I must live the life, a true "copy, Lord, of Thine."

By so doing, I believe I shall be come a helpmeet to my comrades, a leader in very truth, and a soul-winner for the King, which is my earnest desire.

# Forty Years of Unbroken Service A RECORD OF HARD WORK AND SACRIFICE

Honorary Bandmaster Edward King's record is one of hard work and sacrifice. In looking back upon his long years of Army toil one cannot but be convinced that when Edward King knelt at the mercy-seat at Sleatord, Lincolnshire, the transaction which

the transaction which took place was very thorongh.
What then engaged the mind of the grateful and enthusiastic young convert was how he might in some way seek to repay the debt of love he owed to God. He he owed to God. He had not long to ponder the matter, and he soon saw, as every sincere Christian worker soon realizes, that the only way is in service. Thus he began his useful career, and

Thus he began his useful carrier, and now is able to proudly display, on gala cocasions, the insignate Honorary Bania of forty years unbroken Salvation service.

Cradle-Rockers—

There is an old Jowish saying that 
"Ged could not be everywhere, therefore He made mothers." There is 
much beauty and truth in the thought. 
We can bardly concede the assumpion that God is not countpresent, but 
that the mother is His chief representative in the development of men 
can easily be substantiated by the 
records of human life.

"Men are what flielt mothers make 
them," says Emerson. "All that I 
am ollope to be, I owe to my aged 
mother," said Abraham Lincoin. "My 
mother," said Abraham Lincoin. "My 
character was conspicuous," said John 
flushin. "She forced me to learn, 
dally, long chapters of the Bible by 
leart. To that discipline and patient, 
accurato resolve, I owe not only much 
of my general, power of taking pains,

but the best power of my taste for literature."

There was little scottinent in Napoleon, but "let France have good mothers." he said. "and she will have good sone." "The future of society is in the hands of the mothers." says De Beaufort. "If the world was lost through woman, she alone can save it," and "If you would reform the world from its errors and vices," says another, "bogin by enlisting the mothers," which recalls the sontentious Spanish proverb that "an ounce of mother is worth a pound of clergy."

But If all that is true, and there can be no doubt about it, if, as the poet has said, "the hand that rocks the cradle is the hand that rocks the cradle is the hand that these the world," what a responsibility it places

# You're No Older than You Feel!

The rainbow of womanhood! No

The rainbow of womanhood! No compliment pleases a woman more than to be told she looks young. Girls and women in all classes long for that which makes them appear young. Mary Garden suggests a very convincing secret of lasting youth. She says: "By exercising one's intelligence, I believe it possible to become truly agcless. Just so long as your mind is fixed upon the future, just so long as you possess some urrealized amhition, or cherish some uncaccomplished aspiration, some goal upon which you are concentrating

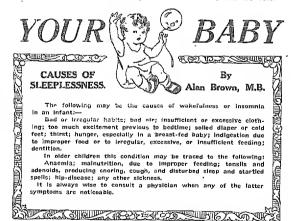

in a vision of the future, to control our destiny, is to fulfil our obligations to the past, to make life itself an art, and ahove all, it is to remain eternally young."

"Ponder the following lines and apply them to your own experience."

"We live in deeds, not years; in thoughts not breaths; In feelings, not in figure on a dial:

We should count time by heart-throlis,

He most lives who thinks most, feels the noblest, acts the best."

every power that you possess, you are resisting age, no matter what your years may total in the counting. Age begins to defeat you only when your minds retreats into the past instead of advancing into the future." She says there are worlds for her to conquer that do not lie in anything externel to her, but in her mind and heart, that experience is the most precious gift of time. She further concludes from her awn successful experience: "To live in the most is to renounce life. To live oxclusively in the present, to take life as we find it, is to live a rende miture-refinsing the torch which the past has landed us to carry on. But to live

#### CARE OF LINOLEUM

Separator oil and vinegar will brighten linoleum after washing, but adds little in the way of protection. A coat of clear varaish, applied about twice a year, is about the only thing that will add to the wearing quality. Linoleum will wear longer if washed without sonn or washing soda. Use clear water with a little kerosene in tand wipe dry as washed. It small rag rugs or even folded newspapers are placed where one stands most to work, it will prevent the heavier wear at those places. Some housewives are clever in the manipulation of mats; wise placing of such is a hoon.

etc. (dose as before.)

The lucky ones will, by now, have learned a lesson or two in that particular brand of Euclid practised by landladles with whom holidaymakers board. For instance: the angles of any mattress are always acute. And: the sheet, however far it may be produced in either direction will never cover the occupant of the bed. And: the area of the meal is never more than one quarter the area of the plate on which it is imposed.

Now I'm the last person in the world to begrudge the lucky ones

imposed.

Now I'm the last person in the world to begrudge the lucky ones their luck. All I wish is that this Editor O' Mine would say: "Thomas, get thee hence unto a far country even unto the Point, which is Jackson's. Peradventure it shall come to pass that as thou doet meander by the water's edge thy mind shall be refreshed."

But not he. He assures me that

a figment of the imagination: "You think you are hot." It is useless for me to point to a lamp-post melted by the heat in the middle so that it droops like a soft candle, a wilted lilly, or a stick of asparagus. "Rubbish, actually that poet is perpendicular, but your subconscious esc thinks it is bent and your disordered mind \_\_\_\_." I took him out to have an feercam cone. S'good for Editors. However, I couldn't persuade him that the bill was merely a figment of his imagination.

Let me tell you folks lazying along the since shores of Muskoka that downtown here it's so hot that Dante's picture was a ground frost compared with it. Five more degrees of heat and the paint will be running off the sides of the street-cars. I'm trying to keep cool by singing about Greenland's ley Mountains, but the Editor complains that my voice gives him a

suburb of Albert Street; it is the Heavyweight Champion of All To-ronto this week. Let others mooch off to Muskoka for a holiday if they please—Brock Avenue calls for an increase of 100 copies!

Beat that if you can. The best strategy is the offensive, say the Avenue folks—maintain your ground by progressing; defend your position by attacking. And so they go up One Hundred.

They're made of the right stuff at Brock Avenue, and its moself who hastens to compliment them on their wiscium, and congratulate tuem on their success. They have made steady progress all through 1926, and unless I'm mistaken in my men the Summer will end with the Avenuers well up the Plan of Campaign.

And now a word to my friends the Corps Officers who have recently taken up

holiday business. If and when you go a holidaying be sure you have covered your tracks. Arrange for your customers to be supplied. And when you return make up for the intervening period by an extra effort which will prove that the holiday has done you good.

For the past six months you have all done nobly and well. We have made wonderful strides, and more people have read of Salvation and comfort than ever before. Keep up the pace; don't lose ground that has been won so finely.

SUB-TERRITORIAL COLONEL T. CLOUD SPRINGDALE ST., ST. JOHN'S.

### Colonel and Mrs. Cloud conduct Thirtuone Meetings in the Notre Dame Bay District

### OVER ONE HUNDRED SEEKERS REGISTERED

Leaving Twillingate, after being delayed by ice, the "Bramwell Booth" steamed out of the harbor, with Colonel and Mrs. Cloud and party anxious to complete their appointments, even though they were already behind schedule.

During the night the wind had changed from N.E. to S.W., slacking the large arctic-pans, which from the shore looked to be negotiable around Long Point. After manoeuvring for some time through the loose pans we found to our dismay that the lee had tightened, making it apparently imsome time through the loose pans we count to our dismay that the lee he tound to our dismay that the lee he tound to our dismay that the lee he tightened, making it apparently impossible to get dirough it. The negation was stopped and with gaffs and oars a strenuous effort was made to extricate the ship and keep her from being crushed. The mainsail was raised and with the aid of a strong S.W. wind we finally emerged into the open see, only to find that the engine would not start. This was a great disappointment, as we were making good leeway.

After some time we got under way again, but having to steem in the teeth of a lierce wind and through iceberg our speed was greatly reduced. Finally, we rounded Western Head, and eventually found our selves abeam of Samson's Island.

Just when all seemed to be going well again, the fly-wheel of the engine loosened, and it was impossible to proceed further. The mainsail was raised, and the ship partly sailed and partly drifted to Comfort Cove Head, where we dropped anchor under the shelter of a large berg of ice.

ice.

A small row-heat was lowered, and the Major and Ensign Parsons rowed to Wild Cove. The Major then walls cod to Comfort Cove and secured two small motor boats, one to take the "Bramwell Booth" to port, and the other to convey the party to Campbellton, the next appointment.

Arriving at 11 p.m. Saturday, we

found that all hope of our visit had heen abandoned and the comrades heen ahandoned and the comrades had retired to rest. After some difficulty we secured some food for which we were very thankful after our long fast. This was the third time during the tour that we had spent thirteen hours on the water.

On the following morning (Sunday), a goodly number of uniformed Salvationists attended the Holiness meeting and were greatly inspired by the Colone's earnest appeal for surrenders.

The spiritual tone of this Corps, which is commanded by Ensign and Mrs. Parsons, is high. The School is also well looked after by Ensign Elllott.

Immediately following the afternoon service, which was attended by a large crowd, the balance of the party, comprising Colonel and Mrs. Cloud and Major Tilley, boarded another motor boat for Lewleporte, where a night meeting was to be conducted.

This was the conclusion of a strenuous and eventful four weeks' touch the most arduous tours ever undertaken, but with glorlous results. Upwards of a thousand miles were travelled by land and sea, thirty-one meetings were conducted, and over one hundred seekers sought Salvation and Sanctification.

The Colonel was extremely pleased with the evidence of advancement made during the past twelve months, and puts on record his appreciation.

### CARING FOR A FAMILY IN **GREAT TROUBLE**

GREAT TROUBLE

Early one cold morning an Officer in one of our Western towns received a call from the District Jail. Upon his arrival he found a woman, and six children, ranging in age from one to ten years, weeping bitterly in the corridor of the prison.

The Governor informed the Salvationist that the previous day the husband had been sentenced to a term of imprisonment. The previous afternoon, which had been very cold, the wife and children had walked in from a farm, ten miles distant and had spent the night in the Police Station. They were very ill-clad; one little chap of three years was without mittens.

They were very ill-clad; one little chap of three years was without mittens.

The Officer approached the group and they, thinking he was a policeman, shrank from him, and began to cry bitterly. However, he soon enlightened them as to his kindly intentions, and before long they were greatly comforted. He offered to drive them back to the farm, and although they were at first loath to go, he managed to persuade them that it was the best thing. They said there was nothing for them to eat, and nothing for their horses and cattle, but they were bundled into an automobile, and in a little while they were at the farm. The Officer found some wood, soon had a fire going, and then located food for the children. On his return to the city, he got in touch with a man who went out to superintend matters and make arrangements for the care of the family and stock till the husband's release.

#### A TIP FOR "HUBBY"

A THE FOR "HUBBS"

Although it may not be possible for the actual practice to be adopted in this country, many would do well to partake of the spirit of a recent addition to the program for Sunday at the Stuartpuram Settlement, India. There the attendance of the woman temestings presented a difficult problem, owing to household duties, but the problem has been solved. A visitor describes it thus: "On Sunday it was 'up in the morning early." visitor describes it thus: "On Sunday it was 'up in the morning early.' #### OVERCOMING BLINDNESS

OVERCOMING BLINDNESS
In the West of England is a Bandmaster who, since he was eighteen
years of age, has been almost blind.
First the handicapped lad set himself to master the principles of
music, and did so with a perseverance arising from a consuming ambition to serve God. Perseverance
has brought him to his present position. To overcome the drawback of
his impaired vision, our comrade has
an acute aural perception, which has
been of great service to him. Few
wrong notes go undiscovered.
The following tribute is paid by
one who has fought side by side with
him: "He is a fine man, spiritually
and musically, very quiet, little in the
godd would have him follow."

Commander Evangeline Booth, of the United States, has written and composed a number of Salvation Songs, the best known of which are: "The Wounds of Christ are Open," "Go on," and "My many sins He pardoned."

The well-known Army songs, "While the Light from Heaven is falling," "Keep on believing, Jeaus is near," and "I have pleasure in His service," were composed by the Commander's sister, Commissioner Lacy Booth-Heilberg, now in charge of our Work in Norway.

"Pitt was Chancellor of the Exchequer at the age of 22, and at 23 was Prime Minister of the country. But this is a remarkable exception to the custom prevailing by which a man seldom arrives at the proud position before the age of between 50 and 60. In Saskatchewan the call is for younger men," says the "Canadian Gazette."

### THE IMPORTANCE OF TAKING A HOLIDAY

TAKING A HOLIDAY

We often hear men claim, with not a little pride, that they have never taken a holiday. We may admire their fortitude but not their forethought. The exceptional man, no doubt, can go on without a break and yet reach a hale old age; but the average man courts only danger and disaster when he forces mind or muscle to work with never a halt.

Even the horse, a wonderful worker, is periodically put out to grass. Man, with a physical and mental machinery far more delicate, certainly ought not to try to dispense with what is thought vital in the case of the horse.

The world is full of labor-saving devices, but they have not lessened the strain of living. The strain has only shifted from brawn on to brain. There is more intense brain-rack than ever there was. It has been said there is no limit to the amount of work the brain can do. That is true, however, only so long as the brain is kept fit, and the brain is not kept fit by never giving it a rest.

The mind needs its vacation if it is to do its work. Once it is broken, it is not so easy or quickly mended as a body, worn out with physical labor, is refreshed. So much the greater reason for treating it with gentle-

# Distracted Lover Discovered in American Asylum.

About fifteen years ago (says the New York WAR CRY) a young man came to this country from Denmark to make a new start in life after an unhappy courtship with a gil of high station, whose parents compelied her to separate from his attentions.

The young man himself came from a good family, but was of the hard-studying and struggling type that meet with misunderstanding because they refuse to fall in line and be patterned as just one of a million men without distinction.

without distinction.

He left with a broken heart and a crumpled spirit, hoping that through hard work and faith in himself he would force his way upward and so reach the favor of the girl's parents. For a couple of years his inventive genus carried him in the right direction, but the strain, incessant labor, and deep sorrow brought about a nervous collapse, and he began to roam about the country.

Eventually he was picked up by the authorities, sent to a hospital, where he was adjudged insane, and promptly dispatched to an asylum. He was listed as one of the many who become simply a number and so passout of history. Relatives and Iriends lost all trace of him, and for ten years he was considered a lead man. The Army then took up the strings where others had laid them down, and the Officer at Oslo, who is responsible for this class of work, was soon on the young man's track. He was found, and when the authorities learned that The Army was interested in his case they released him. Relatives, through the Headquarters in Oslo, then made arrangements for his transportation itome, and The Army Travelers' Bureau made all plans for him on this side, and last month he was sent on to Copenhagen, where aged parents awaited the return of a son whom they had almost given up hope of seeing again.

#### THE TRAPPER'S OPEN DOOR

DOOR

The story was told recently of a thief who rifled a trapper's cabin in Alberta. Hospitality in that remot region decrees that the door be left unfastened. And one visitor brake faith with the absent host and stole goods belonging to the trapper.

Canada well knows how to deal with the transgressor. The police, by mrans of a dor sieigh, caught him after a 400-mile chase. Ten times that distance they would have journeyed to capture the robber.

In older countries the abuse of hospitality is considered something mean, and despicable. In a new lead like Canada the act is a crime, for the trapper's ever-open door is not only succor but often life itself to the benighted.

I myself have lived on a Canadim farm in a house where doors were never locked. My host was a man of seventy-six, one who went out west fifty years ago. His open doors are a survival of those early pionersing days—days when the nearest neighbor was eight miles distant, when the traveler and his horse might be frozen to death if he missed the light and the latch of the settler's cabin.

The house was built on the side of the pioneer's shack. Often and often in those far-off times, was my host wakened by the entry of a strangerarrying his saddle. This he would fling for pillow on the earthen floet, then he would feed the stove with an armful of wood, and, curling himself in his blanket, go to sleep.

If he were hungry the stranger lipid himself to my host's provisions, said "Thank you," and rode on. He knew that he and his horse were welcome—welcome though the host might be away. For the settler's world was the wilderness—shelter, food, mid warmth belonged to all.

And so I slept with never a key in my bedroom lock. You, if you called there, would be expected to stay for a meal—or for the night if the sin were setting.

But never offer that pioneer mones, Like the trapper away in the north, his tradition is that of the open door.—C.B.

At 3 p.m. the Commissioner was advertised to give a lecture entitled "Some glimpses of the Social work of The Salvation Army," and he dealt very largely with the splendid work done in the Martimes at the various Hospitals and Metropoles and Immigration Lodges.

The citadel was crowded for the Salvation meeting and many people were unable to gain admittance. After the opening exercises, Colonel Adby gave a soul-stirring address which paved the way for Commissioner Sowton's powerful message,

Treasurer Hoar, Young People's Sergeant-Major Eita White. Bandmaster Deadman, Assistant Sergeant-Major Richards, each spoke of their delight in having such a beautiful building to labor in. Lieutenant Vivian Copp, Lieutenant Wells, Lieutenant Hodgson, who were journeying to their new appointments, also spoke feelingly of the help Monoton Corps had been to them, and pledged fidelity to God and The Army.
Mrs. Major Burton, on behalf of the Saint John Division, also spoke, congratulating Commandant and Mrs. Hargrove on the excellent work aerendered yeoman service during the direction of Bandmaster Deadman, rendered yeoman service during the week-end.
